## Ramakrishna Mission Lumdung Seppa, East Kameng January'18 PROFILE in Brief

CONTD...

At the very outset we wish to extend our gratitude and tons of thanks to M/s Sushee Infra and Mining Ltd. for their great contribution in the making of the Approach Road which starts from the National Highway called the Trans-Arunachal Highway and ends where RKM premises begins. This 2.83 KM long road through jungle where only one small jeep could somehow move through mud and bolder has now become 10 metre wide road where two buses can comfortably cross face to face. As on 31<sup>st</sup> December, rock cutting and

dozing for the road is almost complete which has to be followed by constructing 10 culverts and then application of bitumen done. The Project Director Mr. J K Paradesi of Sushee Infra is very much hopeful that by end of January 2018 the Road Construction will be completed and then the work of laying almost 6 KM. long Water Pipe-line can start by the PHED, Govt. of Arunachal

Pradesh.

### Box Cutting going on

The job of Road Construction for only 3 KM was not very easy in view of many adverse factors like a) Unprecedented rainfall in the year 2017 which did not allow anyone to start any kind of work on the hills b) Non-availability of diesel when the work started c) Delay in selection of the starting point of the approach road from the engineering point of view : usually for all practical purpose the gradient should be less for vehicles to move, but that would make the length of the road longer. However, ultimately as per the engineers' decision, the longer route was finally chosen and the extra load of expense for this longer route was generously considered by the Sushee authority from their CSR for the future beneficiaries of the people of Arunachal Pradesh.

### CULTURAL PERFORMANCE BY INDIGENOUS FAITH, SEPPA

**We are the makers of our own fate. None else has the blame, none has the praise.**

--- **Jwami Vivekananda**

The soil testing was done by Ma Kamakhya Engineering Co. of Guwahati in September 2017 while the geological survey and the Contour Mapping was done by Precision Surveying Co. of Guwahati in September as well as in November 2018. The work for architectural and structural drawings entirely depends on the available contour map special on hilly areas. Therefore Mr. Vinod Kakumanu of School Serv, Bangalore and his colleagues could start their job only in November 2017 to proceed for the Master Plan. In the month of October, 2018 we invited Civil Engineer Mr. S.N. Bhoumik, of Kolkata

and his senior friend Mr. Barin Chatterjee, Retd. Scientist, GSI and Field Engineer who came and visited the place and submitted their reports. As it is not very easy to visit Seppa in East Kameng (Inner Line Permit required ) for difficulties in transportation etc, it was to be skilfully coordinated and our Ex student Dr. Radhe Natung was always on his mark to help us in all respect. Dr. Radhe is working in the State Medical Hospital at Naharlagun and belong to his native place at Lumdung. The great cooperation of Mr. Mama Natung, Parliamentary

Secretary and MLA was always there in these days and, he emphatically assured, will be there for all time in future. Every now and then Revered General Secretary Maharaj of Ramakrishna Mission and Swami Bodhasarananda, Asstt. General Secretary are posted about the progress of work.

METADATA

The village Lumdung is 21 km from the District Town Seppa. One may come from Itanagar via Saggali, Pakke Kasan OR other way via Tezpur/Balipara and Bhalukpong which was the old route. Via Saggali along the Tran- Arunachal Highway it is about four and a half hours journey.

**STRENGTH.... STRENGTH ...  
STRENGTH.... SAY THAT TO YOURSELF  
DAY AND NIGHT, YOU ARE STRONG,  
PURE AND FREE**

**\*SWAMI VIVEKANANDA**

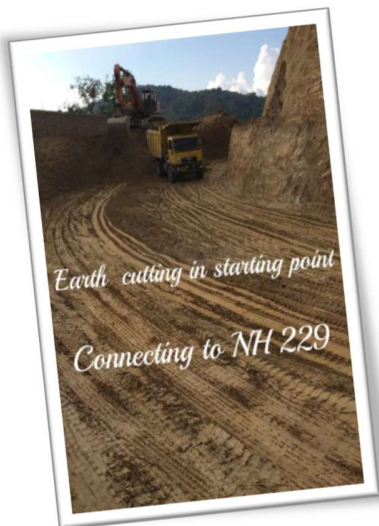

On 3<sup>rd</sup> December every year the Indigenous Faith of Arunachal Pradesh organizes their Annual Meet through a Festival in Seppa as well as in Itanagar and other important towns of Arunachal Pradesh. This year they invited the Secretary of RKM Lumdung to speak for a while at Central Nyedar Namlo at Seppa where the Power Minister Mr. Tamiyo Taga was present along with Mr. Mama Natung and Ex-MLA as well. There was a morning rally and attractive cultural performances during the function.

PAPPU VALLEY IN BIRD'S EYE VIEW

The extra ordinary natural beauty of the Pappu Valley and long behind towards Chayang Tajo the view of the snow peaks are of special attraction from the new plot of RKM Lumdung. The people of East Kameng now believe that in near future Lumdung will become a place of tourist attraction as well.
